## EDUCATION

|                                                                                                                  |                                                 |
|------------------------------------------------------------------------------------------------------------------|-------------------------------------------------|
| <b>Pace University</b><br><i>Master of Science (MS) in Computer Science (GPA - 4.0/4.0)</i>                      | New York City, NY<br><i>Jan 2024 - Dec 2025</i> |
| <b>Dr. A.P.J. Abdul Kalam Technical University</b><br><i>Bachelor of Technology (B.Tech) in Computer Science</i> | Noida, India<br><i>Jul 2016 - Sep 2020</i>      |

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript/TypeScript, Rust  
**Databases:** PostgreSQL (SQL), Redis, MongoDB  
**AWS Services:** API Gateway, Lambda, RDS, S3, EC2, CloudWatch, Step Functions, CloudFormation, CloudFront  
**Frameworks:** Spring Boot, React, FastAPI, FastMCP, LangGraph, LangChain, LangSmith, PyTorch  
**Others:** Git, GitHub, CI/CD, Node.js, Kafka, Google Cloud  
**AI:** Claude code, Codex, Pi coding-agent

## PROFESSIONAL EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                          |
