EDUCATION

Pace University <i>Master of Science (MS) in Computer Science (GPA - 4.0/4.0)</i>	New York City, NY <i>Jan 2024 - Dec 2025</i>
Dr. A.P.J. Abdul Kalam Technical University <i>Bachelor of Technology (B.Tech) in Computer Science</i>	Noida, India <i>Jul 2016 - Sep 2020</i>

TECHNICAL SKILLS

Languages: Java, JavaScript/TypeScript, HTML, CSS, Python, Rust
Frameworks: Spring Boot, React, FastAPI, PyTorch, LangChain, LangGraph, LangSmith, FastMCP
Databases: PostgreSQL, MongoDB, Redis
AWS Services: EC2, RDS, S3, Lambda, CloudWatch, Step Functions, CloudFormation, CloudFront, API Gateway
Others & AI: Git, Maven, CI/CD, Node.js, NLP, Predictive Modeling, Google Cloud, Kafka

PROFESSIONAL EXPERIENCE

Software Engineer Qualitest	Noida, India <i>Feb 2021 - Dec 2023</i>
- Contributed to the development of an Identity & Access Management platform using React, Spring Boot, and AWS, supporting thousands of users across 30+ applications through seamless Full Stack Integration and RESTful API development - Built an internal support chatbot using Java, LangChain, and RAG (Retrieval-Augmented Generation) with PostgreSQL vector store, reducing ticket resolution time by 20% by enabling AI Integration over internal documentation - Developed backend workflows using AWS Step Functions and Maven to handle long-running data import jobs, ensuring Quality Assurance and preventing AWS Lambda timeouts through rigorous testing and debugging	

Software Engineer Sperse	Phoenix, AZ <i>Feb 2026 - present</i>
- Developed an MCP AI interaction layer that translates natural language processing intents into safe, validated tool calls across 1000+ platform endpoints, enabling Full Stack Integration of automated customer actions - Built generative code solutions (API-aware templates, SDK patterns, and code-generation workflows) to accelerate integration with Java and JavaScript based platform APIs, improving implementation correctness and developer growth - Enabled a robust observability layer using Langfuse and LangSmith for tracing, structured logs, and evaluation hooks to monitor AI Integration behavior, debug failures, and track performance quality over time	

AI Researcher Pace Artificial Intelligence Lab	New York City, NY <i>Sep 2025 - Dec 2025</i>
- Conducted research on StyleGAN and Stable Diffusion to generate fashion designs using PyTorch and LORA on an HPC cluster, exploring predictive modeling concepts to enhance application capabilities - Utilized vLLM for model inference with Hugging Face deployment, ensuring secure and efficient model serving while gaining expertise in Artificial Intelligence (AI) frameworks and model fine-tuning	

PROJECTS

Dark Factory - Orchestrator for AI coding CLIs <i>Crossterm, Ratatui, Y-crdt</i>	github.com/ozzyozbourne/dark-factory
Enables full ownership of CLI IO via PTY, checking and logging every JavaScript and Java command before execution by bash shell to ensure application reliability
