PROJECTS

Dark Factory - Orchestrator for AI coding CLIs <i>Crossterm, Ratatui, Y-crdt</i>	github.com/ozzyozbourne/dark-factory
- Enables full ownership of CLI IO via PTY, checking and logging every command before execution by bash shell - Allows secure distributed ralph loops across machines by using Y-crdt to signal to the orchestrator on each iteration - Provides event-driven agentic loops making each AI CLI session broadcast real-time updates eliminating polling overhead
